- Google Cloud Professional Data Engineer

Experience

TechFlow Consulting Group

Senior Cloud Solutions Architect

March 2020 - Present (5 years 7 months)

Seattle, Washington, United States

Leading cloud data platform implementations for Fortune 500 clients across financial services, healthcare, and retail sectors. Responsible for architecting scalable data solutions and managing cross-functional delivery teams.

- Design and implement cloud data platform strategies for enterprise clients, resulting in 40% improvement in data processing efficiency
- Lead technical teams of 8-12 engineers through complex data migration and modernization projects with 98% client satisfaction rate
- Architect and deploy cloud-native analytics platforms supporting real-time and batch processing for clients processing 10TB+ daily data volumes
- Develop reusable infrastructure frameworks and automation tools that reduced deployment time by 60% across client engagements
- Drive business development activities including RFP responses, solution design, and executive presentations resulting in \$15M+ new business

DataVantage Solutions

****Principal Data Platform Engineer**** *(January 2019 - February 2020)*

****Cloud Data Architect**** *(November 2016 - December 2018)*

Seattle, WA

Led the design and implementation of enterprise data platforms for mid-market clients. Specialized in cloud migration strategies and modern data architecture patterns.

- Architected and implemented data lakes and analytics platforms on AWS, Azure, and Google Cloud for 25+ client engagements
- Developed infrastructure as code templates and DevOps pipelines that became standard practice across the organization
- Mentored junior engineers and established technical best practices for cloud data platform development

CloudTech Innovations

****Senior Data Engineer****

June 2014 - October 2016 (2 years 5 months)

Boston, MA

- Led data platform modernization initiatives and developed cloud migration strategies for enterprise clients
- Implemented ETL/ELT pipelines and data integration solutions using modern cloud-native tools and frameworks
- Designed and built real-time streaming data platforms supporting business critical applications with 99.9% uptime SLA

CloudTech Innovations is a leading provider of cloud transformation and data modernization services for enterprise clients.

Nexus Systems Consulting

Data Solutions Consultant

August 2012 - May 2014 (1 year 10 months)

Boston, MA

- Designed and implemented data warehouse solutions and business intelligence platforms for clients in financial services and healthcare
- Developed SQL-based analytics solutions and automated reporting systems that improved decision-making processes
- Created technical documentation and conducted training sessions for client technical teams

Nexus Systems Consulting specializes in data analytics and business intelligence solutions for mid-market enterprises.

Global Data Systems Inc.

****Junior Data Analyst****

September 2010 - July 2012 (1 year 11 months)

Supported data analysis and reporting initiatives across multiple client projects:

- Developed automated data processing workflows and quality monitoring systems to ensure data accuracy and completeness
- Created interactive dashboards and visualization tools for executive reporting and operational monitoring
- Assisted in database design and optimization projects to improve query performance and system scalability

Education

University of Washington

****Master of Science (MS), Computer Science - Data Systems Track****

2009 - 2011

Carnegie Mellon University

****Bachelor of Science (BS), Information Systems and Computer Science****

2006 - 2010

This CV demonstrates 15+ years of progressive experience in cloud architecture and data platform engineering, with strong consulting background and proven leadership capabilities.
